Centralized protection of collaboration and communication platforms

On-boarding

**Create your IQ.Suite 360 tenant**
Provide contact details, company details and other registration information.

**Connect IQ.Suite 360 to your O365 tenant**
Set up the connection to O365 using the O365 Tenant Global Administrator account.

**Choose the channels**
Decide for which service in O365 you want to enable better protection – Teams, Sharepoint, etc.

**Enable one or more malware scanning engines**
Choose from several industry-leading malware scanning technologies.

**Configure protection settings**
Fine-tune the settings to match your specific needs and you’re ready.
